

SAFETY AND ACCIDENT RULES:

Indelox is committed to minimize risks to human health and the environment in and around the workplace. More specifically, Indelox is dedicated to maintaining the health and safety of its employees, customers and neighbors, as well as preserving the integrity of our environment. This commitment is supported by management and is the individual as well as collective responsibility of all Indelox employees as a team.

We are committed to minimize waste and will continue to invest in innovations that protect our environment. We look forward to integrate environmental issues and concerns into our business decisions and transactions.

We adhere to all safety regulations and we report any unsafe conditions of work-related injuries, illness and accidents to the concerned immediately.

The Company is committed to protect the environment. Therefore, each of us shall comply strictly with the applicable environmental laws and regulations. Nobody in the company has the authority to engage in any activities that does not comply with the environmental policies and laws.

Failure to report or disregard any company's safety rules and regulations may result in disciplinary action including termination of employment.
